ValuechainScore™

Smart, efficient and affordable "sustainability" reporting (VSME)

SMART – FUNCTIONAL – ACCESSIBLE

VSME REPORTING

○ Environment ○ Social ○ Governance

THE VALUECHAINSCORE™ APPROACH: PRACTICAL, AFFORDABLE, AND FUTURE-READY

Our VSME tool ("Voluntary Small and Medium Enterprise – European Sustainability Reporting Standard") gives you instant clarity on what really matters: where you stand today, what steps to take next, and how your actions impact both your organization and your value chain.

Built on the EFRAG Reporting Standard and the official EFRAG XBRL taxonomy for sustainability reporting, the tool ensures seamless alignment with European sustainability guidelines. No more complexity or wasted time — your report is generated instantly and interactively, so you can focus on creating real impact.
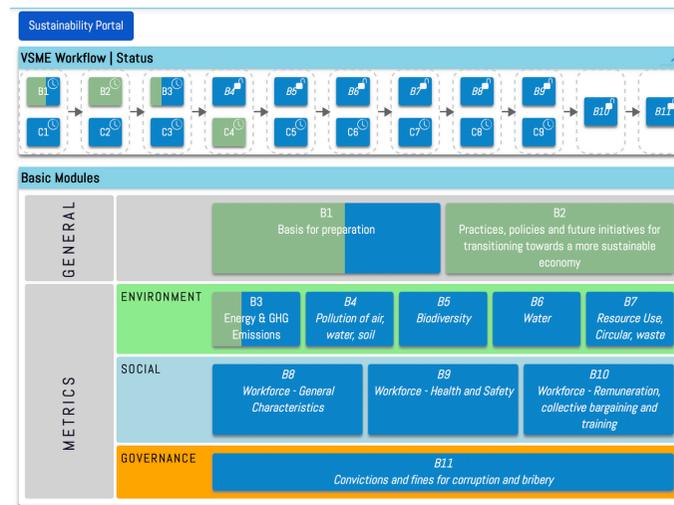

11 Basic Modules

9 Comprehensive Modules

① BASIC MODULE Generic Information

② BASIC METRICS - ENVIRONMENT

③ BASIC METRICS - SOCIAL

④ BASIC METRICS - GOVERNANCE - BUSINESS CONDUCT

OPTIONAL:
Strategic insight through double materiality analysis.

Your Company Sustainability Portal with basic and optional tools

GO BEYOND COMPLIANCE – TURN SUSTAINABILITY INTO YOUR STRENGTH

Our approach gives you clarity and control, lets you work at your own pace, and provides practical tools that match your capacity.

Want to create more impact? Our experienced consultants can transform your data into a compelling sustainability story for customers, partners, and employees – strengthening your brand and building trust at the same time.

FROM INSIGHT TO IMPACT, FROM REPORTING TO REPUTATION.

With the Valuechainscore approach, you make sustainability an integral part of your business strategy – without unnecessary complexity, and based on the EFRAG VSME.
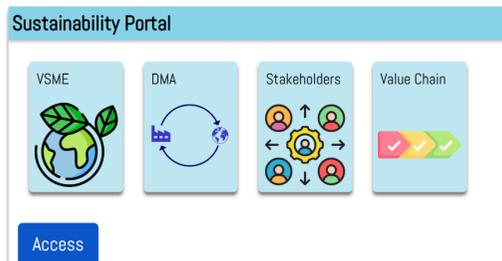

- Basic and/or Comprehensive Module
- European Sustainability Reporting Standards (ESRS)
- A practical document library

BUILD YOUR REPORT INTERACTIVELY
The basic tool builds your report step by step, interactively. Each section includes direct EFRAG references.

Still need extra help? At a reasonable fee, you can rely on highly experienced consultants. By doing much of the work yourself, you gain deeper insights while saving costs.

Real-time interactive reporting

MAKE SMART USE OF WHAT IS ALREADY IN PLACE

In many sectors, generic and sector-specific rules and policies are already defined. With Valuechainscore™, much of this can be automated per sector (NACE) and industry, saving time and quickly highlighting key sustainability measures.

WANT TO KNOW MORE OR GET STARTED AT AN AFFORDABLE RATE?

Discover what's possible and see how sustainability can become a true driver of growth.

INTRODUCTORY OFFER:

For specific sectors, we offer an introductory promotion* for the Basic Module 2025 at €995 (excl. VAT). We also organize "sector pilots" where we automate processes wherever possible.

NEED CUSTOMIZATION?

We continuously improve – smarter, better, and more engaging. From a super-convenient document library to standard templates and data source integrations, shaped by user feedback. An optional AI support module is also available.

Optional API's and AI implementation on request
